TRIM™ TC 155

Nonferrous Corrosion Inhibitor

TRIM TC 155 is a nonferrous corrosion inhibitor for use in water soluble and straight oil systems. It is particularly effective in preventing staining and white rust on die cast alloys containing copper.

Additives

The troubleshooters:

As cutting and grinding fluids can start to break down over time, tank-side additives can solve a number of problems. There are TRIM tank-side additives compatible with most coolants to extend tap and tool life, improve mechanical lubricity, control built-up edge, prevent stained parts, control foam, stabilize the emulsion, and replenish dye.

Whatever your problems and concerns, ask your TRIM specialist if a tank-side additive could be the answer.

Choose TC 155:

- Prevents staining and white rust on die cast alloys containing copper
- Nonferrous corrosion inhibition

TC 155 especially for:

Applications — corrosion inhibition

TRIM™ TC 155

Nonferrous Corrosion Inhibitor

Application Guidelines

- TC 155 is added at a rate of 0.05%-0.125% to working solutions.
- This product should not be used in conjunction with systems containing copper or copper amine compounds as part of their formulation or systems to which these compounds have been added.
- For additional product application information, including performance optimization, please contact your Master Fluid Solutions' Authorized Distributor at https://www.masterfluids.com/ap/en-ap/distributors/index.php, your District Sales Manager, or email us at apac-info@masterfluids.com.

Physical Properties Typical Data

Color (Concentrate)	Light amber
Odor (Concentrate)	Nearly odorless
Form (Concentrate)	Liquid
Flash Point (Concentrate) (ASTM D92-90)	> 100°C

Ordering Information

20-liter pail

204-liter drum

Additional Information

- Use Master STAGES™ Whamex™ for a quick and thorough precleaning of your machine tool and coolant system.
- Consult Master Fluid Solutions before using on any metals or applications not specifically recommended.
- This product should not be mixed with other metalworking fluids or metalworking fluid additives, except as recommended by Master Fluid Solutions, as this may reduce overall performance, result in adverse health effects, or damage the machine tool and parts. If contamination occurs, please contact Master Fluid Solutions for recommended action.
- TRIM™ is a trademark of Master Chemical Corporation d/b/a Master Fluid Solutions.
