

# WEDOLiT® C 24-K

## Assembly Fluid

WEDOLiT C 24-K is a water-soluble, fully synthetic fluid that facilitates the assembly of parts. The product is compatible with most non-ferrous metals and is also suitable for painted surfaces. However, the compatibility should be examined in preliminary tests. The product is also suitable for the expansion or reduction of aluminium tubes.

**WEDOLiT C 24-K is approved by VW (Approval Number 29.4433).**

## Physical Properties Typical Data

Parameter	Typical results	Tested according to
Appearance:	Yellowish, slightly turbid	Visual
Density at 20°C:	1.10 g/cm <sup>3</sup>	ASTM D 7042
Viscosity at 20°C:	715.0 mm <sup>2</sup> /s	ASTM D 7042
pH-value (tap water)	8.3	DIN EN ISO 10523
Copper corrosion:	Not determined*	DIN 51759-1

\*Discolourations of non-ferrous metals should be examined in preliminary tests

## Application Guidelines

Storage must be frost-free between 5 - 40°C.

The minimum durability is 12 months in an original sealed package.

## Choose WEDOLiT C 24-K:

- The outstanding lubrication properties facilitate the assembly of components
- Reduces friction and wear and thus contributes to a high tool life
- Easily removable with organic solvents or alkaline industrial cleaners

## Health and Safety
