

# WEDOLiT® FS 7400

## Calibration Oil

**WEDOLiT FS 7400** is a non-water-miscible, evaporating calibration oil for light to medium calibration processes.

### Physical Properties Typical Data

Parameter	Typical results	Tested according to
Appearance:	yellowish, clear	Visual
Density at 20°C:	0.79 g/cm <sup>3</sup>	ASTM D 7042
Viscosity at 20°C:	3.5 mm <sup>2</sup> /s	ASTM D 7042
Flash point:	> 61 °C	DIN EN ISO 2719
Copper corrosion:	Not determined*	DIN 51759-1

\*Discolourations of non-ferrous metals should be examined in preliminary tests

### Application Guidelines

Please test material compatibility on the materials used.

The product must be stored frost-free between 5 - 40°C.

The minimum shelf life in the sealed original container is 12 months.

### Additional Information

The information herein is given in good faith and believed current as of the date of publication and should apply to the current formula version. Because conditions of use are beyond our control, no guarantee, representation or warranty expressed or implied is made. Consult Master Fluid Solutions for further information.
