

Master STAGES™ CLEAN F2™

Non-butyl Floor and Multi-purpose Cleaner

Master STAGES CLEAN F2™ is a super concentrate that does an outstanding job in floor cleaning and other multi-purpose uses. In addition to its primary job in automatic floor scrubbers, it is often used for general-purpose cleaning, mop bucket cleaning, and parts washing in room temperature wash tanks. The mild pH of this product means it is compatible with most waste treatment (including ultrafiltration) and it will not degrade TRIM metalworking fluids with which it may come into incidental contact.

Global Tool Manufacturer Reduces Cleaner Costs by 15% with Master Fluid Solutions™

Since the mid-1800s, our customer has built their tool manufacturing empire into a catalogue of globally recognised brands and services. Their growing product portfolio encompasses consumer and industrial tools, vehicle and electronic fasteners, and even cutting-edge security services.

Aerospace Approvals

| Company | Specification |
|---|----------------------------|
| Boeing | No specification available |
| Raytheon Technologies/Collins Aerospace/Pratt & Whitney | No specification available |

Choose CLEAN F2:

- With a mild pH and low conductivity, CLEAN F2 will not cause splitting of TRIM coolants
- Formulated without silicates or other high pH additives, CLEAN F2 is compatible with ultrafiltration systems and bioremediation
- CLEAN F2 has been proven nonirritating to skin at 20% concentration
- An excellent choice for packaging in spray bottles up to 20%
- Can be used for general cleaning tasks and to remove soils from parts and tools
- Operators like CLEAN F2's mild, pleasant citrus scent
- Environmental approvals are simplified because CLEAN F2 contains no nitrites, barium, phenols, or butyl cellulose; this formula has very low V.O.C. content
- An effective "mop bucket" cleaner in addition to use in floor scrubber machines
- Will remove heavy soils from floors without lifting off floor paints, coatings, or leaving a slippery residue; suitable for concrete, painted, tile, or linoleum floors

CLEAN F2 especially for:

Applications — automatic floor scrubbers, floor cleaning, general-purpose cleaning, hard surface cleaning, mop bucket cleaning, multi-purpose cleaning, parts washing and spray bottle

Soils — coolant residues and light oils

Metals — cast iron, steels and zinc

Industries — aerospace, automotive, bearing, diecast, green, job shop and medical

CLEAN F2 is free of — 2-butoxyethanol (Butyl), barium, high pH additives, nitrites, phenols and silicates

Master STAGES™ CLEAN F2™

Non-butyl Floor and Multi-purpose Cleaner

Application Guidelines

- CLEAN F2 is designed to be used at low concentrations:

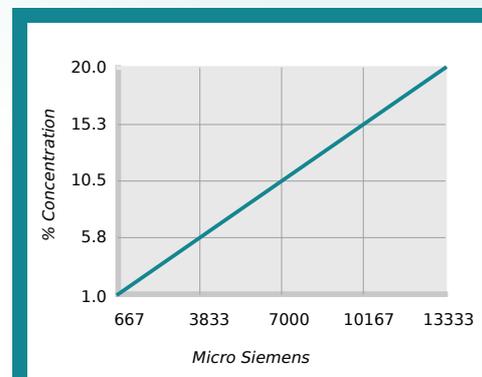

| Washing Method | Percent | Add Rate |
|--|---------|------------|
| Power washers and steam cleaners | 1%-3% | 10-30ml/l |
| Floor scrubber machines | 1½%-3% | 15-30ml/l |
| Mop buckets | 5%-10% | 50-100ml/l |
| Parts washing (immersion type) | 10% | 100ml/l |
| Hard surface cleaning (spray bottle or bucket) | 20% | 200ml/l |

- CLEAN F2 is also effective in immersion style washers and ultrasonic baths, and can be used at room temperature up to 71°C.
- For additional product application information, including performance optimisation, please contact your Master Fluid Solutions' Authorised Distributor at <https://www.masterfluids.com/eu/en/distributors/index.php>, your District Sales Manager, or call our Tech Line at +49 211 41 72 8 -900.

Physical Properties Typical Data

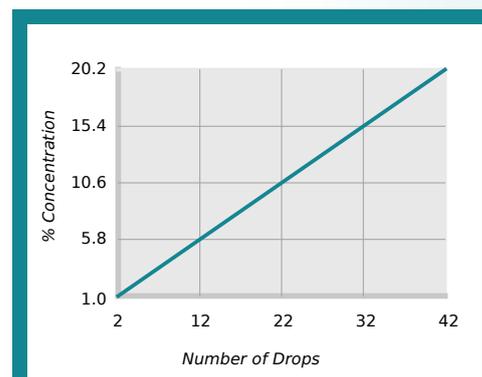

| | |
|---|-------------|
| Colour (Concentrate) | Blue |
| Colour (Working Solution) | Blue |
| Odour (Concentrate) | Mild citrus |
| Form (Concentrate) | Liquid |
| Flash Point (Concentrate) (ASTM D93-08) | > 102°C |
| pH (Concentrate as Range) | 11.4 - 12.4 |
| pH (Typical Operating as Range) | 10.2 - 11.2 |
| Cleaner Conductivity Factor | 0.00150 |
| Titration Factor (CL-1 Titration Kit) | 0.48 |
| Number of Cleaner Vials (CL-1 Titration Kit) | 4.0 |
| Cleaner Indicator A or B (CL-1 Titration Kit) | B |

Concentration by Conductivity

% Concentration = Conductivity in Micro Siemens x Factor
Conductivity Factor = 0.00150

Concentration by Titration

% Concentration = No. of Drops x Titration Factor
Titration Factor = 0.48
